CAMPUS, FEDERAL AND STATE REGULATIONS FOR CONCURRENT ENROLLMENT

- The Family Educational Rights and Privacy Act (FERPA) protects privacy of a student's educational records by placing limits on whom may have access to the records, what information may be shared or disclosed, and how that information may be used. Butte College complies with FERPA and has strict policies and procedures in place governing student records. Because Concurrent Enrollment students are considered college students (even if underage), Butte College does not permit access to their educational records or disclose information to anyone (including parents/guardians).
- The law limits the number of concurrent enrollment students enrolled in each section of a physical activity class. Approval for concurrent enrollment in a physical education class does not guarantee you will be selected to enroll in that class.
